

Air pistols

- **Morini CM 162 EI**

Caliber 4.5 mm / .177

What is now produced by all big pistol manufacturer and every year more used by the best shooters comes from a project presented for the first time worldwide in 1992 by Morini Competition Arm S.A. The excellent result shown at Olympic Games, World Cups, National, European and World Championships are a proof of a good project and a good gun. Electronic trigger with two AAA batteries at 1.5V

- **Morini CM 162 MI**

Caliber 4.5 mm / .177

Same as CM 162EI but incorporating a mechanical trigger unit

- **Morini CM 162 EI Short**

Caliber 4.5 mm / .177

Same as CM 162EI but 370 mm long and the same sight radius

- **Morini CM 162 MI Short**

Caliber 4.5 mm / .177

Same as CM 162MI but 370 mm long and the same sight radius

Free Pistol

- Morini CM 84E

Caliber .22 I.r.

This free pistol has been produced as a result of further design improvements in the medal winning Morini pistols at Olympic and international competitions. Fitted with an electronic trigger as standard it also employs a light sensitive safety that eliminates accidental discharge unless the trigger finger is in position

Standard pistol

- Morini CM 22M

Caliber .22 I.r.

A matching family of Standard pistols with some revolutionary features! Direct bullet feed from magazine to breach rather than the traditional style of feed between magazine lips causing rim or bulletnose damage, misfeeds and jams.

- Morini CM 22M ALU

Caliber .22 I.r.

Same as CM 22M in Steel but designed for extreme lightness and balance this latest model is mainly constructed of alloy with a steel barrel

Centerfire Pistol

- Morini CM 32M

Caliber .32 S&W Long

Designed to be compatible with the .22 I.r. variant above this pistol is for the full-bore discipline only.
