

EUROPEAN RANKING

The European Ranking is based on the ISSF (yearly) World Ranking (WR).

At the end of the last ESC/ISSF Championship of the year all European athletes that appear in the ISSF World Ranking (WR) will be ranked accordingly in each of the 12 individual Olympic events. The European athlete in the highest position of the ISSF World Ranking (WR) will be in position 1 of the European Ranking (ER), the next one – in position 2, position 3, etc., till the last one.

Additionally, apart from the ranking points attributed as per ISSF Ranking system, one (1) point will be attributed to any European athlete who participates in an ESC/ISSF Championship in an individual Olympic event and does not receive any ranking points.
